

Safe Syringe Disposal

There are many safe prescription disposal locations in Jackson County, however, not all locations accept sharps. Call the location to verify what they take or follow the steps below at home.

1

Put used sharps in a hard, plastic container.

When the container is 3/4 full, put the lid on, seal it with duct tape, and label DO NOT RECYCLE.

Tip: Don't have a certified sharps container? Use an old laundry detergent bottle.

2

Put the plastic container in a trash bin.

Syringe Service Program

For information about proper syringe disposal and risk reduction supplies & education, reach out to Home of New Vision Harm Reduction for additional guidance and resources.
