Jackson County Department of Transportation to Enforce Seasonal Weight Restrictions

JACKSON COUNTY, MI – The Jackson County Department of Transportation (JCDOT) will implement seasonal weight restrictions starting Tuesday, February 17, 2026, at 6:00 a.m. until further notice.

Seasonal weight restrictions are necessary to protect roads during the annual freeze-thaw cycle, which can weaken pavement and lead to costly damage. These temporary restrictions help preserve road conditions and ensure the safety of all travelers.

Agriculturalists, utility companies, and other affected businesses needing seasonal permits can apply online at www.oxcartpermits.com.

For more information, please contact JCDOT at (517) 788-4230, visit our website at bit.ly/JCDOT, or follow us on Facebook for updates.
