

HOW DOES IT WORK?

Link-Up Jackson is a Data to Care (D2C) public health initiative.

Link-Up utilizes HIV surveillance data to identify & contact HIV-positive individuals that are not currently receiving HIV medical care. Upon contact, Link-Up works with each individual to identify and address their medical and non-medical needs.

Medical Needs: Link-Up makes active referrals to HIV medical providers.

Non-Medical Needs: Link-Up makes active referrals to existing social support services to address barriers, such as:

- ~Mental Health
- ~Housing
- ~Transportation
- ~Medical Case Management
- ~Early Intervention Services (EIS)
- ~Psycho/Social Support
- ~Financial Distress
- ~Co-Pay Assistance
- ~Insurance Enrollment
- ~Job Training
- ~Food Assistance
- ~Nutrition Therapy and
- ~Counseling
- ~Legal Aid
- ~Adherence Counseling

Link-Up Jackson is FREE, confidential, and voluntary.
