

**Jackson COVID-19 Action Network (JCAN)** is a group of local health, human services, education and government entities, private businesses and philanthropic organizations who have come together to support our community members during this time of need. We want to ensure that **ALL** Jackson residents have **FOOD, SHELTER, INFORMATION** and other **BASIC NEEDS** during the Coronavirus (COVID-19) crisis, **YOU** can help us help our neighbors!

## HOW CAN YOU HELP? Donate to the COVID-19 Response Fund

We're working with local service agencies and community leaders to identify the biggest needs & how best to respond. We anticipate these needs will include:

1. Ensuring families impacted by this crisis have access to food, shelter, & other basic needs.
2. Keeping our critical human service network strong; nonprofits are losing revenue now and we need them more than ever.
3. Addressing long-term impacts that we may see over the coming months should workplace interruptions be prolonged.

\*In the event that our current measures work to significantly slow the spread of COVID-19, and this fund is not fully used for the above purposes, the United Way of Jackson County will invest all remaining proceeds in basic needs services throughout the coming year

The COVID-19 Response Fund will help pay for these community-wide efforts, with 100% of donated dollars going to the work. Fill out the form, click on "Type of Gift" and select "COVID-19 Response Fund."
